## description

The ITT Easy Project Easyuse SMS, with its distinctive big buttons is a scaled-down mobile phone that's easy to grip and simple to use. It's been designed for people who just want a phone to make and receive phone calls, who prefer mobile phones with few functions and that are easy to use. ITT's EasyUse SMS is however not completely lacking features, but provides the most important and relevant ones. The phone has four buttons that can be pre-programmed, labelled A to D and large non reflective rubberised buttons. It has a 100 memory phone book and can receive SMS text messages. It is available in a white or black finish.
